

## OUR VISION & MISSION

Connected Design, brought to you by Technology Integrator, is ambitious venture that brings together Home Technology Professionals, Architects, Builders and Interior Designers to highlight the latest in cutting-edge electronics and sophisticated design.

By recognizing the teams and individuals who best exemplify their craft, we aim to push the home technology vertical to the forefront of the conversation and celebrate the different entities that factor into the ultimate success of a project.

## UPCOMING ISSUES

WINTER 2018 | SPRING/SUMMER 2018 | FALL 2018

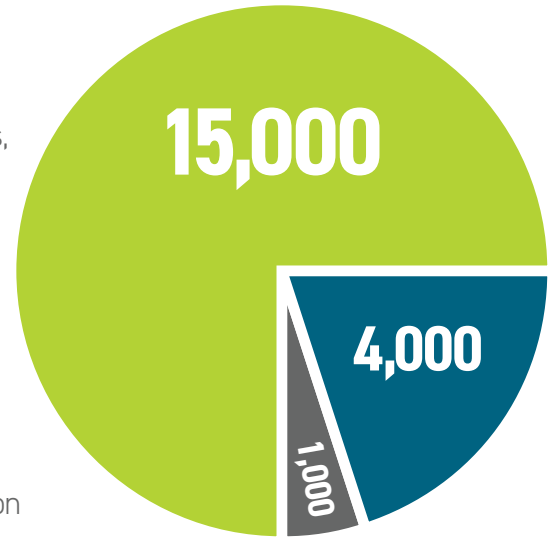

### TOPICS COVERED

- Dozens of technology inspired builds from around the country that highlight the best a premium industry has to offer
- Integrator Spotlights that focus on the best of the best and explain the crucial elements that net them the high-value projects
- Project of the Month: Focus on a unique project and the designers, architect and Home Technology Professional that made it a reality.
- Features on Manufacturers products that address the technological needs of the modern dwelling and why design and Home Technology Professionals need to know about them!
- Designer's Column: Today's top designers discuss client trends, simple-steps to working together to obtain that great project and building project teams that are future proof.
